Nigeria Economic Report Improved Economic Outlook in 2014

ABUJA, July 22, 2014 Nigeria's short-term economic outlook has improved in 2014 and prospects for continued growth and macroeconomic stability are good in light of increased revenues to the federation, stable foreign reserves and an augmented fiscal reserve fund, according to a new World Bank report. The Nigeria Economic Report (NER) also highlights two remaining risks to the country's

Economic growth Wikipedia

Economic growth is the increase in the inflation-adjusted market value of the goods and services produced by an economy over time. It is conventionally measured as the percent rate of increase in real gross domestic product, or real GDP. Growth is usually calculated in real terms - i.e., inflation-adjusted terms to eliminate the distorting effect of inflation on the price of goods produced.

Can Economic Growth Continue Forever Of Course

Tim Harford, who writes the Financial Times's Undercover Economist column, has appeared on our blog many times. This guest post is part of a series adapted from his new book *The Undercover Economist Strikes Back: How to Run or Ruin an Economy*. Can economic growth continue forever? The internet seems to be full of physicists explaining that economists are clueless on this topic.

Public debt and economic growth Is there a causal effect

1. Introduction. Do high levels of public debt reduce economic growth? This is an important policy question. A positive answer would imply that, even if effective in the short-run, expansionary fiscal policies that increase the level of debt may reduce long-run growth, and thus partly (or fully) negate the positive effects of the fiscal

stimulus.

Economic development in India Wikipedia

The economic development in India followed socialist-inspired politicians for most of its independent history, including state-ownership of many sectors; India's per capita income increased at only around 1% annualised rate in the three decades after its independence. Since the mid-1980s, India has slowly opened up its markets through economic liberalisation.
