Neuro linguistic programming Wikipedia

Neuro-linguistic programming (NLP) is an approach to communication, personal development, and psychotherapy created by Richard Bandler and John Grinder in California, United States in the 1970s. NLP's creators claim there is a connection between neurological processes (neuro-), language (linguistic) and behavioral patterns learned through experience (programming), and that these can be changed

Methods of neuro linguistic programming Wikipedia

The methods of neuro-linguistic programming are the specific techniques used to perform and teach neuro-linguistic programming, a pseudoscience which teaches that people are only able to directly perceive a small part of the world using their conscious awareness, and that this view of the world is filtered by experience, beliefs, values, assumptions, and biological sensory systems.
