Architecture Wikipedia

Definitions and etymology. Architecture (Latin architectura, from the Greek arkhitekton "architect", from - "chief" and "creator") is both the process and the product of planning, designing, and constructing buildings and other physical structures.. Architecture can mean: A general term to describe buildings and other physical structures.

John Nash architect Wikipedia

One of Nash's most important developments were a series of medium-sized country houses that he designed in Wales, these developed the villa designs of his teacher Sir Robert Taylor. Most of these villas consist of a roughly square plan with a small entrance hall with a staircase offset in the middle to one side, around which are placed the main rooms, there is then a less prominent Servants
