The COBOL Connection Examples and Reference Material

Introduction The COBOL Connection provides a suite of programs that were originally written using the IBM VS COBOL II dialect with few exceptions. For example, programs that access the system date may require the COBOL/390 dialect to be Y2K compliant. The intent is to provide programs that are compliant with the ANSI standard and many of the programs are coded to the ANSI'85 standard with the

Generic SOPs documents Land mine

Generic SOPs [Demining handbook] (Version 2) SOPs are Standing (or Standard) Operating Procedures - the "rules" covering every aspect of field activity. For some people they are not "Standing" but "Standard" Operating Procedures. The word "Standing" implies that they may not be standing at another time, which is correct, but "Standard" is also commonly used.

Procedure word Wikipedia

Procedure words or prowords are words or phrases limited to radio telephone procedure used to facilitate communication by conveying information in a condensed standard verbal format. Prowords are voice versions of the much older prosigns for Morse code first developed in the 1860s for Morse telegraphy, and their meaning is identical. The U.S. military communications manual ACP-125 contains the
