Once someone has gone through the first Signing Naturally 1 book, this seems to be a great book in the sequence. There are skills reviewed, yet more skills and vocab introduced. For me, some of the activities are challenging, but for the DVD, it is GREAT practice for receptive skills and just good practice watching.

I love Signing Naturally books. My teacher uses these with me and are very understandable. This is learning by immersion so it has NO voice on the DVD and the pictures have no vocabulary words attached. This book is great with a teacher leading you. Also this is an advanced level, not for beginners.
