What is Relaxation innerhealthstudio com

During a relaxation exercise (such as progressive muscle relaxation, visualization, meditation, or another relaxation technique) muscle tension decreases, blood pressure goes down, the mind becomes calm, and the harmful effects of prolonged stress are counteracted.. The "relaxation response" is the opposite of the stress response. The stress response is also known as the fight-or-flight response.

Improve Immune System Function Boost White Blood Cells

If you want an incredibly strong immune system, you need to have high white blood cell counts. This is because white blood cells produce antibodies which are your body's first line of defense against foreign bacteria and viruses that try to get through the permeable layer of the skin. Our bodies make white blood cells over and over again since they are depleted and die off in a few days or a
