Fixed income arbitrage Wikipedia

Fixed-income arbitrage is an investment strategy generally associated with hedge funds, which consists of the discovery and exploitation of inefficiencies in the pricing of bonds, i.e. instruments from either public or private issuers, yielding a contractually fixed stream of income.. Most arbitrageurs who employ this strategy trade globally.. In pursuit of their goal of both steady returns

FIXED INCOME Research Affiliates

2 | FIXED INCOME Time Horizon One of the major considerations when embarking on the journey to generate asset class return expectations is the issue of time horizon. Because the focus here is on generating capital market expectations for strategic asset allocation, and not tactical overlays, a significantly long time horizon of 10 years was selected.
