

KNOWLEDGE MANAGEMENT TAXONOMY

RELATED BOOK :

Knowledge management software Wikipedia

Knowledge management software (KM software) is a subset of Enterprise content management software, which contains a range of software that specializes in the way information is collected, stored and/or accessed. The concept of knowledge management is based on a range of practices used by an individual, a business, or a large corporation to identify, create, represent and redistribute

Personal knowledge management Wikipedia

Personal knowledge management (PKM) is a collection of processes that a person uses to gather, classify, store, search, retrieve and share knowledge in their daily activities (Grundspenkis 2007) and the way in which these processes support work activities (Wright 2005). It is a response to the idea that knowledge workers need to be responsible for their own growth and learning (Smedley 2009).
