

SOLAR PIT GREENHOUSE

RELATED BOOK :

Pit Greenhouses Solar Innovations

Pit Greenhouses Pit greenhouses are extremely energy efficient, as they are essentially a hole dug into the ground with an attached glass structure. At a depth of four feet, the Earth retains a temperature of roughly 50 degrees year round; almost 10 degrees warmer than that of an above ground greenhouse.

My Solar Pit Greenhouse Failure The Homesteading Boards

His garden area right in front of his greenhouse. He had salvaged a bulkhead door for entry. and he had cut all the cedar off his 3 acre property and with a weeks hard work and some plastic sheeting, he made himself a solar pit greenhouse. He said my project had motivated him to try it, I guess it wasn't a failure after all.
