

PAYMENT CARD INDUSTRY DATA SECURITY

RELATED BOOK :

Payment Card Industry Data Security Standard Wikipedia

The Payment Card Industry Data Security Standard (PCI DSS) is an information security standard for organizations that handle branded credit cards from the major card schemes.. The PCI Standard is mandated by the card brands and administered by the Payment Card Industry Security Standards Council. The standard was created to increase controls around cardholder data to reduce credit card fraud.

A simple explanation of fees in the payment card industry

I wrote a piece last month explaining how the payment card industry works.. I talked about the various actors (acquirers, issuers, schemes, merchants, etc) and pointed out how weird it is that everybody knows the Mastercard and Visa brand names yet nobody actually has a relationship with them.
