Five Reasons Why Elementary Teachers Should Flip Math

I wrote this post for ISTE and you can find it also at [THIS LINK](#) Four years ago, before the concept of flipped learning really took off, I wrote a blog post about flipping the elementary classroom. It resonated with a lot of people, and to this day it is one of the most-read blog posts on my site

Mathwire com March 2011

Students will complete open-ended problems in both classroom and state testing situations, most likely under timed conditions. Teachers should continue to use a combination of the writing process approach (to grow better math writers) and the independent response situation, in which students must apply good practices to producing their best responses under test conditions.
