Geography Human geography Britannica com

Human geography. Since 1945 human geography has contained five main divisions. The first four economic, social, cultural, and political reflect both the main areas of contemporary life and the social science disciplines with which geographers interact (i.e., economics, sociology, anthropology, and political science and international relations, respectively); the fifth is historical geography.

Social geography Wikipedia

Social geography is the branch of human geography that is most closely related to social theory in general and sociology in particular, dealing with the relation of social phenomena and its spatial components. Though the term itself has a tradition of more than 100 years, there is no consensus on its explicit content. In 1968, noted that "[w]ith some notable exceptions, () social geography
