Timber framing Wikipedia

Timber framing and "post-and-beam" construction are traditional methods of building with heavy timbers, creating structures using squared-off and carefully fitted and joined timbers with joints secured by large wooden pegs. It is commonplace in wooden buildings from the 19th century and earlier. If the structural frame of load-bearing timber is left exposed on the exterior of the building it

Enclosure Wikipedia

Enclosure (sometimes inclosure) was the legal process in England of consolidating (enclosing) small landholdings into larger farms. Once enclosed, use of the land became restricted to the owner, and it ceased to be common land for communal use. In England and Wales the term is also used for the process that ended the ancient system of arable farming in open fields.

A Comprehensive History of Zionist Crimes

Prologue. As governments continue their relentless drive towards global dictatorship, emasculation of national sovereignties and wilful refusal to govern for the benefit of their own citizens, it is clear that an international

cabal or Mafia exerts great influence upon the obsequious flunkies and traitors who pose as 'leaders'.
