The Cultural Nature Of Human Development 1257 Words

Barbara Rogoff s The Cultural Nature of Human Development discusses cultural patterns as they relate to human development. Human development is a cultural process by which devices such as language and literacy are employed by means of learning from one another. To date, the study of human development has been largely based around research and theoretical knowledge coming from middle-class communities in Europe, as well as North America.

The Cultural Nature of Human Development Barbara Rogoff

Barbara Rogoff argues, however, that human development must be understood as a cultural process, not simply a biological or psychological one. Individuals develop as members of a community, and their development can only be fully understood by examining the practices and circumstances of their communities.
