Clamp On Ultrasonic Flow Meter Abest Meter

Clamp On Flow Meter Brief. Clamp on ultrasonic flow meter is famous for its unique non-invasive installing, which provides non intrusive flow measurement for closed pipe. Clamp on flow meters are also called as clamp on water flow meter, strap on flow meter, non contact flow meter, etc. It can measure liquid volume flow from external surface of closed pipe. The flow meters are mainly developed on two

Water metering Wikipedia

Water metering is the process of measuring water use.. In many developed countries water meters are used to measure the volume of water used by residential and commercial buildings that are supplied with water by a public water supply system. Water meters can also be used at the water source, well, or throughout a water system to determine flow through a particular portion of the system.

What is a flow meter Omega Engineering

A flow meter (or flowmeter) is an instrument used to measure linear, nonlinear, volumetric or mass flow rate of a liquid or a gas. When choosing flow meters, one should consider such intangible factors as familiarity of plant personnel, their experience with calibration and maintenance, spare parts availability, and mean time between failure history, etc., at the particular plant site.
