

SCRUM AND AGILE METHODOLOGY

RELATED BOOK :

An Empirical Framework For Learning Not a Methodology

Scrum is part of the Agile movement. Agile is a response to the failure of the dominant software development project management paradigms (including waterfall) and borrows many principles from lean manufacturing.

Agile Methodology

The 20% of this that s Agile is the stuff that s relatively easy to change in an organization: putting testers on the teams (except not integration testers evidently), working in iterations, acknowledging that architecture will evolve, and co-opting (occasionally abusing) Agile jargon.

Scrum software development Wikipedia

Scrum is an agile framework for managing knowledge work, with an emphasis on software development. It is designed for teams of three to nine members, who break their work into actions that can be completed within timeboxed iterations, called "sprints", no longer than one month and most commonly two weeks, then track progress and re-plan in 15-minute stand-up meetings, called daily scrums.

Scrum Methodology and Project Management

Scrum is an agile way to manage a project, usually software development. Agile software development with Scrum is often perceived as a methodology; but rather than viewing Scrum as methodology, think of it as a framework for managing a process.

Scrum what it is how it works and why it's awesome

What is Scrum? Scrum is a framework that helps teams work together. Much like a rugby team (where it gets its name) training for the big game, Scrum encourages teams to learn through experiences, self-organize while working on a problem, and reflect on their wins and losses to continuously improve.

Agile software development Wikipedia

Agile software development is an approach to software development under which requirements and solutions evolve through the collaborative effort of self-organizing and cross-functional teams and their customer(s)/end user(s). It advocates adaptive planning, evolutionary development, early delivery, and continual improvement, and it encourages rapid and flexible response to change.
