### **How To Crate Train Your Dog PAWS**

The crate training process. Crate training can take days or weeks, depending on your dog's age, temperament and past experiences. It's important to keep two things in mind while crate training. The crate should always be associated with something pleasant, and training should take place in a series of small steps - don't go too fast.

### **How to Crate Train a Dog**

Likewise, a dog with serious separation anxiety should not be crated. If you believe your dog suffers from separation anxiety, consult a behaviorist for treatment before you undertake a crate training regimen. And never crate train a dog who is sick, for example, vomiting or experiencing bouts of diarrhea. Wait until he is well to begin.
