### **Programming WCF Services Design and Build Maintainable**

This book is better than Lowy's previous book on WCF in it's depth and coverage. But, it still suffer's from the historical approach to WCF that has been tied to IIS and Web Services. WCF is a multi-function interprocess and Web communications center framework and not just a replacement for COM Services.

### **Programming WCF Services O'Reilly Media**

Written by Microsoft software legend Juval Lowy, Programming WCF Services is the authoritative introduction to Microsoft's new, and some say revolutionary, unified platform for developing service-oriented applications (SOA) on Windows. Relentlessly practical, the book delivers insight, not documentation, to teach developers what they need to know to build the next generation of SOAs.
