Neuro linguistic programming NLP Does it work

NLP relies on language processing but should not be confused with natural language processing, which shares the same acronym. NLP was developed by Richard Bandler and John Grinder, who believed it was possible to identify the patterns of thoughts and behaviors of successful individuals and to teach them to others.

What is NLP

NLP stands for Neuro-Linguistic Programming. Neuro refers to your neurology; Linguistic refers to language; programming refers to how that neural language functions. In other words, learning NLP is like learning the language of your own mind! Let's make this simpler with an example. Have you ever tried to communicate
