### **Flying car Wikipedia**

A flying car is a type of personal air vehicle or roadable aircraft that provides door-to-door transportation by both ground and air. The term "flying car" is also sometimes used to include hovercars.. Many prototypes have been built since the first years of the twentieth century using a variety of flight technologies and some have true VTOL performance, but no flying car has yet reached

### **Geoengineering Waging Weather Warfare On World**

Climate engineering is mathematically the most destructive form of anthropogenic activity ever unleashed on the biosphere. Geoengineering programs must also be considered biological warfare due to the highly toxic materials that are being dispersed into our skies. The fight to expose and halt climate engineering is a fight for life, nothing less.
