Theories of Aging Part 3 Sociological Theories allnurses

Disengagement Theory The Disengagement Theory, one of the earliest and most controversial theories of aging, views aging as a process of gradual withdrawal between society and the older adult. This mutual withdrawal or disengagement is a natural, acceptable, and universal process that accompanies growing old. It is applicable to elders in all cultures, although there might be variations.

Nobel Prize controversies Wikipedia

Chemistry 2008. The 2008 prize was awarded to Osamu Shimomura, Martin Chalfie and Roger Y. Tsien for their work on green fluorescent protein or GFP. However, Douglas Prasher was the first to clone the GFP gene and suggested its use as a biological tracer. Martin Chalfie stated, "Douglas Prasher's work was critical and essential for the work we did in our lab.
