Solar cell phone charger Wikipedia

Solar cell phone chargers use solar panels to charge cell phone batteries. They are an alternative to conventional electrical cell phone chargers and in some cases can be plugged into an electrical outlet.. There are also public solar chargers for mobile phones which can be installed permanently in public places such as streets, park and squares.

Solar cell Wikipedia

A solar cell, or photovoltaic cell, is an electrical device that converts the energy of light directly into electricity by the photovoltaic effect, which is a physical and chemical phenomenon. It is a form of photoelectric cell, defined as a device whose electrical characteristics, such as current, voltage, or resistance, vary when exposed to light.. Individual solar cell devices can be
