Linux Wikipedia

Linux (/ˈlɪnʊks/) (LIN-ks) is a family of free and open-source software operating systems built around the Linux kernel. Typically, Linux is packaged in a form known as a Linux distribution (or distro for short) for both desktop and server use. The defining component of a Linux distribution is the Linux kernel, an operating system kernel first released on September 17, 1991, by

View running processes on a Linux system Linuxlookup

Most Desktop environments offer a GUI Task Manager for those of you partial to graphical interfaces. For example, Ubuntu by default uses the Gnome Desktop environment and the Linux Task Manager can be accessed by clicking System > Administration > System Monitor. Though a GUI may be the most simplistic, you really should take some time to learn to use command line options.
