### **Computer aided architectural design Wikipedia**

Computer-aided architectural design (CAAD) software programs are the repository of accurate and comprehensive records of buildings and are used by architects and architectural companies. The first program [which?] was installed back in the 1960s, to help architects save time instead of drawing their blueprints.

Computer-aided design also known as CAD was originally the type of program that

### **Architectural drawing Wikipedia**

An architectural drawing or architect's drawing is a technical drawing of a building (or building project) that falls within the definition of architecture. Architectural drawings are used by architects and others for a number of purposes: to develop a design idea into a coherent proposal, to communicate ideas and concepts, to convince clients of the merits of a design, to enable a building
