

## [ACCELERATION BOOK](#)

**RELATED BOOK :****Acceleration Wikipedia**

In physics, acceleration is the rate of change of velocity of an object with respect to time. An object's acceleration is the net result of all forces acting on the object, as described by Newton's Second Law. The SI unit for acceleration is metre per second squared ( $\text{m s}^{-2}$ ). Accelerations are vector quantities (they have magnitude and direction) and add according to the parallelogram law.

**TLS acceleration Wikipedia**

TLS acceleration (formerly known as SSL acceleration) is a method of offloading processor-intensive public-key encryption for Transport Layer Security (TLS) and its predecessor Secure Sockets Layer (SSL) to a hardware accelerator.. Typically this means having a separate card that plugs into a PCI slot in a computer that contains one or more coprocessors able to handle much of the SSL processing.

**Comprehension Reading Rockets**

Comprehension is the understanding and interpretation of what is read. To be able to accurately understand written material, children need to be able to (1) decode what they read; (2) make connections between what they read and what they already know; and (3) think deeply about what they have read.
