

REVISION CONTROL SOFTWARE

RELATED BOOK :

List of version control software Wikipedia

Local data model. In the local-only approach, all developers must use the same file system. Open source. Revision Control System (RCS) stores the latest version and backward deltas for fastest access to the trunk tip compared to SCCS and an improved user interface, at the cost of slow branch tip access and missing support for included/excluded deltas.

Darcs FrontPage

Darcs is a free and open source, cross-platform version control system, like git, mercurial or svn but with a very different approach: focus on changes rather than snapshots. Darcs offers a freer way of working, and a simpler user interface. Darcs does not require a central server, and works perfectly in offline mode.
