Most Helpful Customer Reviews. Across the Universe is breathtaking science fiction, the kind where I feverishly turn the pages to find out what happens next. One of those books where immediately after the last page is turned, I want to start over from the beginning and read it again. It really is that good.

Across the Universe Beth Revis Book Depository

ACROSS THE UNIVERSE was my first book out of the sci-fi genre. I've never been very into stories about space ships or space wars. The universe with its wide expanse, planets and stars have always fascinated me in some way though. So ACROSS THE UNIVERSE was a perfect pick for me to approach this foreign genre.

This book was less action packed, and less violent, and I thought that although most of the characters of both books could have been a little better developed, those in Across the Universe were a little more realistic.
