RELATED BOOK :

Animal testing Wikipedia

Animal testing, also known as animal experimentation, animal research and in vivo testing, is the use of non-human animals in experiments that seek to control the variables that affect the behavior or biological system under study. This approach can be contrasted with field studies in which animals are observed in their natural environments or habitats.

Animal Liberation book Wikipedia

Animal Liberation: A New Ethics for Our Treatment of Animals is a 1975 book by Australian philosopher Peter Singer. It is widely considered within the animal liberation movement to be the founding philosophical statement of its ideas. Singer himself rejected the use of the theoretical framework of rights when it comes to human and nonhuman animals. . Following Jeremy Bentham, Singer argued that

Rescue Shelter Pets from Animal Testing

Who would ever think that it would be necessary to rescue shelter pets from ending up in animal testing laboratories? Your local shelter, the one where you may have adopted a dog or brought in a lost dog you saved from the streets, could be selling pets to research labs and medical facilities for testing and experimentation. Certain States have in the past required that pets not adopted be
