Colorectal cancer Wikipedia

Colorectal cancer (CRC), also known as bowel cancer and colon cancer, is the development of cancer from the colon or rectum (parts of the large intestine). A cancer is the abnormal growth of cells that have the ability to invade or spread to other parts of the body. Signs and symptoms may include blood in the stool, a change in bowel movements, weight loss, and feeling tired all the time.

Cancer Wikipedia

Cancer is a group of diseases involving abnormal cell growth with the potential to invade or spread to other parts of the body. These contrast with benign tumors, which do not spread to other parts of the body. Possible signs and symptoms include a lump, abnormal bleeding, prolonged cough, unexplained weight loss and a change in bowel movements. While these symptoms may indicate cancer, they

S ntomas de c ncer de colon primeros iniciales y avanzado

A veces, las c lulas del colon o del recto cambian. Estos cambios pueden conducir a tumores benignos de colon como los p lipos, que no son cancerosos. Los cambios en las c lulas del colon y el recto tambi n pueden causar trastornos precancerosos. Esto significa que las c lulas a n no son cancer genas pero hay una mayor probabilidad de que estos cambios anormales se conviertan en c ncer.
