Textbook Wikipedia

A textbook or coursebook is a manual of instruction in any branch of study. Textbooks are produced according to the demands of educational institutions. Schoolbooks are textbooks and other books used in schools. Nowadays, most textbooks aren't published exclusively in printed format; many are now available as online electronic books

Subject Languages Wikibooks open books for an open world

The books in this subject area deal with languages, in particular foreign language learning. The study of individual modern and classical languages forms the backbone of the modern study of the humanities, while the scientific study of language is known as linguistics and is a social science. Since many areas of the humanities such as literature, history, and philosophy are based on language
