Air conditioning Wikipedia

Air conditioning (often referred to as AC, A/C, or air con) is the process of removing heat and moisture from the interior of an occupied space, to improve the comfort of occupants. Air conditioning can be used in both domestic and commercial environments. This process is most commonly used to achieve a more comfortable interior environment, typically for humans and other animals; however, air

What a Relief Window Air Conditioner Unit Installed

The Texas heat is not letting up and I had to come up with a plan to get some relief. I wrote about the problems I was facing with just 30 amp service last week and the inability to run both roof top mounted air conditioning units simultaneously on only 30 amps.. The only option was to purchase a small window air conditioner hoping it would operate on the existing 20 amp breaker that feeds

RV Air Conditioner Maintenance Tips loveyourrv com

A few months back I went to turn on the trailers AC unit, and it made a funny sound. It was muted compared to normal, and no air was blowing out the vents. I headed up on the roof for a look see. After removing the plastic cover, I had Anne turn on the AC again. Right away I noticed the fan motor wasn't turning. I had her shut it down, and I tried to move the fan.
