Green roof Wikipedia

A green roof or living roof is a roof of a building that is partially or completely covered with vegetation and a growing medium, planted over a waterproofing membrane. It may also include additional layers such as a root barrier and drainage and irrigation systems. Container gardens on roofs, where plants are maintained in pots, are not generally considered to be true green roofs, although

Avian Anatomy Exotic Pet Veterinarian

Avian Anatomy. As an avian veterinarian, I often use words like choana and cloaca, and when I do, I can easily visualize in my mind exactly what these body parts look like, and it's hard for me to realize that often, the owner doesn't understand what I'm saying. Let's take a learning tour through the bird, both externally and internally, so that bird owners will have a better idea of the anatomy.
