Omnivore's Dilemma was assigned to me in an upper-level economics course, along with other similar books. From the very lengthy list of books, this and Rising Powers, Shrinking Planet: The New Geopolitics of Energy were my absolute favorites. To be upfront, this book it is moderate to leftist in its opinions, as is Michael Klare's book, but both books opened my eyes to an entirely new way of thinking about my Economics & Policy degree.

The Omnivore's Dilemma by Michael Pollan

Pollan has divided The Omnivore s Dilemma into three parts, one for each of the food chains that sustain us: industrialized food, alternative or organic food, and food people obtain by dint of their own hunting, gathering, or gardening. Pollan follows each food chain literally from the ground up to the table, emphasizing our dynamic coevolutionary relationship with the species we depend on.
