Following Up on Rh Negative Blood the Kandahar Giant and

First up is Rh-negative blood. Regular readers will remember that there are two main schools of fringe thought on the subject, the first being that the rare blood types (A, B, AB, or O negative) signify that the bearer is a descendant of space aliens either as their slaves or their children while the second claims that it is a mark of racial superiority among certain Basque, Celtic, or

From the Triumvirate to the Ominous Octet A New Paradigm

-CELL FUNCTION. Although the plasma insulin response to the development of insulin resistance typically is increased during the natural history of type 2 diabetes (), this does not mean that the -cell is functioning normally. To the contrary, recent studies from our group have demonstrated that the onset of -cell failure occurs much earlier and is more severe than previously appreciated.
