How God Became King is basically a popularly written introduction to several theses in Wright's academic work, particularly his work in the book series on Christian Origins and the Question of God. It draws most directly on the best book so far in that series, the brilliant Jesus and the Victory of God.

### **How God Became King Preach The Story**

The four gospels are not about Pauline theology, but as Wright puts it, about How God Became King. Wright also notes, the Creeds do not tell this story, while at the same time recognizing the gospels leave out elements of the Creeds. The gospels are therefore about how God became King, while the Creeds are about how Jesus became God.

The problem Wright is addressing in How God Became King is that we usually tell the story of Jesus, especially when we use the creeds, by saying that Jesus was born (became incarnated) and then died and was raised again. The incarnation becomes important only for the ability for Jesus to die and be raised again.

The story of Jesus is the story of how Israel's God became king. Wright's approach this time is not at all objective. He is a believing Trinitarian, and speaks out against the popular opinion that the high Christology of John is a later development.
