### **Charles Darwin Wikipedia**

Charles Robert Darwin, FRS FRGS FLS FZS (/ d r w n /; 12 February 1809 19 April 1882) was an English naturalist, geologist and biologist, best known for his contributions to the science of evolution. His proposition that all species of life have descended over time from common ancestors is now widely accepted, and considered a foundational concept in science.

### **Charles Darwin On the Origin of Species Britannica com**

Charles Darwin - On the Origin of Species: England became quieter and more prosperous in the 1850s, and by mid-decade the professionals were taking over, instituting exams and establishing a meritocracy. The changing social composition of science typified by the rise of the freethinking biologist Thomas Henry Huxley promised a better reception for Darwin.

### **Reactions to On the Origin of Species Wikipedia**

This article covers the time period from November 1859 to April 1861. The immediate reactions to On the Origin of Species, the book in which Charles Darwin described evolution by natural selection, included international debate, though the heat of controversy was less than that over earlier works such as Vestiges of Creation. Darwin monitored the debate closely, cheering on Thomas Henry Huxley
