

REINFORCED CONCRETE LINTEL FOR HIGH RISE BUILDING

RELATED BOOK :

Insulating concrete form Wikipedia

Insulating concrete form or insulated concrete form (ICF) is a system of formwork for reinforced concrete usually made with a rigid thermal insulation that stays in place as a permanent interior and exterior substrate for walls, floors, and roofs. The forms are interlocking modular units that are dry-stacked (without mortar) and filled with concrete. The units lock together somewhat like Lego

Building construction Bronze Age and early urban

Bronze Age and early urban cultures. It was the cultures of the great river valleys including the Nile, the Tigris and Euphrates, the Indus, and the Huang Ho with their intensive agriculture based on irrigation that developed the first communities large enough to be called cities. These cities were built with a new building technology, based on the clay available on the riverbanks.

Western architecture Late 19th century developments

Western architecture - Late 19th-century developments: The Industrial Revolution in Britain introduced new building types and new methods of construction. Marshall, Benyou, and Bage's flour mill (now Allied Breweries) at Ditherington, Shropshire (1796-97), is one of the first iron-frame buildings, though brick walls still carry part of the load and there are no longitudinal beams.

FLORIDA BUILDING CODE

For an exterior courtyard with an opening between 40 feet (1219 mm) and 60 feet wide (18,288 mm), the building walls and wall openings must meet the requirements of the Florida Building Code, Building Tables 601 and 602 and the maximum travel to the courtyard opening/exit shall not exceed 150 feet (45,720 mm) from any point within the courtyard.

<http://ebookslibrary.club/download/FLORIDA-BUILDING-CODE.pdf>

History of construction Wikipedia

The History of construction overlaps many other fields like structural engineering and relies on other branches of science like archaeology, history and architecture to investigate how the builders lived and recorded their accomplishments. Those fields allow us to analyse constructed buildings and other structures built since prehistory, the tools used and the different uses of building materials.
