Gold Options on Futures Contracts Explained. A gold call option gives the purchaser the right but not the obligation to purchase the underlying futures contract for a specific time period and a specific price (strike price). Let's say that you wanted to purchase a June gold \$1,000 call option and pay a premium of \$2,200.

Gold Options Explained The Options Futures Guide

Gold options are option contracts in which the underlying asset is a gold futures contract. The holder of a gold option possesses the right (but not the obligation) to assume a long position (in the case of a call option) or a short position (in the case of a put option) in the underlying gold futures at the strike price.
