What is Economic Thought Readings in Economic Thought

Economic thought simply refers to ideas that try to explain economic phenomena. The history of economic thought can therefore be understood as the intellectual history of economics. Although economics did not formally emerge as a discipline until the late 1800s, ideas and thoughts about the economy have been around for much longer.

what is economic thought Yahoo Answers

"Economic thought" in "history of economic thought" refers to economic theories and doctrines developed by various thinkers in different times. Note that I said "thinkers" rather than "economists"; economics as we understand it today is a very young discipline, dating back to the works of Leon Walras written in 1870s.
