Economics Wikipedia

Economics (/ k n m k s, i k -/) is the social science that studies the production, distribution, and consumption of goods and services.. Economics focuses on the behaviour and interactions of economic agents and how economies work. Microeconomics analyzes basic elements in the economy, including individual agents and markets, their interactions, and the outcomes of interactions.

Attention economy Wikipedia

"Attention economics" treats a potential consumer's attention as a resource. Traditional media advertisers followed a model that suggested consumers went through a linear process they called AIDA - Attention, Interest, Desire and Action. Attention is therefore a major and the first stage in the process of converting non-consumers.
