Sewage treatment Wikipedia

Sewage treatment is the process of removing contaminants from municipal wastewater, containing mainly household sewage plus some industrial wastewater. Physical, chemical, and biological processes are used to remove contaminants and produce treated wastewater (or treated effluent) that is safe enough for release into the environment. A by-product of sewage treatment is a semi-solid waste or

Daggerfall Workshop Remastering Daggerfall

Introduction. All the way back in September, I upgraded font rendering in Daggerfall Unity to support Signed Distance Field (SDF) fonts. This enabled smooth high-resolution font replacements which can operate under the same layout rules as classic Daggerfall s pixel fonts, with a substantial improvement to reading comfort as this comparison screenshot demonstrates.
