

[SCIENTIST IN THE CRIB](#)

RELATED BOOK :

The Scientist in the Crib What Early Learning Tells Us

The Scientist in the Crib is a triumph, a clear-headed account of the kinds of things that go on in the heads of young children.[This book] speaks in the voice of intelligent parents talking to other intelligent parents--witty, rather personal, and very well informed. (T. Berry Brazelton, MD, Harvard Medical School)

Scientist in the Crib

As a children's house, Scientist in the Crib prides itself as a nurturing, flexible and loving environment designed specifically for our children's growing needs. As an extension of home for many children and their families, we want our scientists to feel safe, comfortable and ready to discover and challenge the world around them.

The Scientist in the Crib Minds Brains And How Children

The Scientist in the Crib explains just how, and how much, babies and young children know and learn, and how much parents naturally teach them. In fact, The Scientist in the Crib argues that evolution designed us to both teach and learn. Nurture is our nature, and the drive to learn is our most important instinct.
