Sample Application with Angular js Christophe Coenraets

After I blogged a three-part Backbone.js tutorial (part 1, part 2, part 3), a number of people asked me to try Angular.js. So I decided to take it for a test drive. I thought it would be interesting to rebuild with Angular.js the Wine Cellar application I had built with Backbone.

PHP Wikipedia

PHP development began in 1994 when Rasmus Lerdorf wrote several Common Gateway Interface (CGI) programs in C, which he used to maintain his personal homepage. He extended them to work with web forms and to communicate with databases, and called this implementation "Personal Home Page/Forms Interpreter" or PHP/FI.. PHP/FI could be used to build simple, dynamic web applications.
