Dairy and other Food Sensitivities in Breastfed Babies

If your baby is sensitive to dairy products it is highly unlikely that the problem is lactose intolerance, although many people may tell you so.. See Is my baby lactose intolerant? for more information.. Although cow's milk protein sensitivity and lactose intolerance are not the same thing, they can sometimes occur at the same time, since food allergy can cause secondary lactose intolerance.

Lactogenic Foods and Herbs MOBI Motherhood International

Mothers have individual needs when it comes to lactogenic foods and herbs. Although most mothers produce milk well without having to consider their use at all, a few mothers find that they need to take a good amount every day, and that they may need to take a high dosage for two to four days to kick-start lactation.

Nutrition Wikipedia

Nutrition is the science that interprets the interaction of nutrients and other substances in food in relation to maintenance, growth, reproduction, health and disease of an organism. It includes food intake, absorption, assimilation, biosynthesis, catabolism, and excretion. The diet of an organism is what it eats, which is largely determined by the availability and palatability of foods.
