### **Accounting Wikipedia**

Accounting or accountancy is the measurement, processing, and communication of financial information about economic entities such as businesses and corporations. The modern field was established by the Italian mathematician Luca Pacioli in 1494. Accounting, which has been called the "language of business", measures the results of an organization's economic activities and conveys this

1. Introduction. Total Cost of Ownership (TCO) is a well-known approach for analysing supplier performance and more specifically efficiency defined as the total quantity of resources (inputs) that need to be expended to obtain a given quantity of goods or services from a supplier (outputs). TCO takes into account all the activities carried out by a firm to manage a supply relationship.
