Dave s Cheap Sheet Metal Bending Brake

To open the brake first loosen the bolts then insert a large screwdriver between the top and bottom plate at either end. I m sure some bright person out there will probably come up with a more elegant way to do this. Next insert your sheet metal lining up the bend line with the edge of the top plate.

Dave s Cheap Sheet Metal Bending Brake biplaneforum com

Dave s Cheap Sheet Metal Bending Brake I started building my Zenith CH601XL from plans in mid January 2006. After several failed attempts to bend the rudder spar I ended up going to a local sheet metal shop for help. The problem with that is that their equipment is not set up for the 1/8 inch radius bend specified in the plans. I

homemade metal brake plans Village Press

The Zipped drawings for a Sheet Metal Brake listed in the Home Metal Shop Club page were made from a unit I

designed and built. It is a 24" capacity unit and the only modification I would make is to cut a few slots or split the top member to make it a pan brake. It is a very heavy unit and works very well. JRW
