Adolescent Social Networks and Alcohol Use Variability by

Types of adolescent social networks. Adolescents are embedded in different networks of peers; some of these networks are friendship networks, while others are networks based on attributes such as popularity, academic achievement, admiration, or aspirations to be like others (Bearman, Moody, & Stovel, 2004 Bearman, P. S., Moody, J., & Stovel, K. (2004).

The Impact of Peer Social Networks on Adolescent Alcohol

Early adolescent alcohol use is a major public health problem. Drinking before the 14th birthday is associated with a fourfold increase in risk of alcohol dependence in adulthood. The objective of this study is to evaluate the association between adolescent social network characteristics and alcohol initiation prospectively over time.
