RELATED BOOK :

Beginning Java SE 6 Game Programming Jonathan Harbour

Sadly, this is probably one of the best Java game programming books out there, but there is much more to be desired. Being a Java developer, this was perfect for my needs. The book provided the methods of game programming logic that I needed. Unfortunately, even if you're a beginning Java programmer, I would suggest something else.

5 Best Core Java Books for Beginners JournalDev

Head First Java: Head First Java was the first java related book that I read, almost 9 years ago. This is a great book and you should read it. This is a great book and you should read it. The best part of Head First Java is the simplicity of the book and how easily it relates java programming concepts to real life.

Java 2D game programming book learnprogramming reddit

The Java 2D game programming books also tend to cover this pretty well. A lot of simple 2D games in Java is simply a combination and good use of Java2D for graphics output, AWT for dealing with user input (like mouse clicks, keyboard hits, mouse movements, etc) and Swing for stuff like menus and configuration panels.
