Every Patient Tells a Story Using Narrative Medicine to

A patient comes to us and tells us a story of illness; we listen to that story and compare it with other stories we've heard to determine a diagnosis. We may call on consultants to help, so we tell them stories about what is occurring with our patient and why we need their help.

EVERY PATIENT TELLS A STORY by Lisa Sanders Kirkus Reviews

Ultimately, she writes, the primary work of doctors is to treat pain and relieve suffering. Sanders tells the story of one patient who was feverish and clearly suffering from a severe infection, yet massive intravenous antibiotics weren't helping. A doctor noticed that one of the patient's toes looked gangrenous.
