Genetically modified organism Wikipedia

A genetically modified organism (GMO) is any organism whose genetic material has been altered using genetic engineering techniques. The exact definition of a genetically modified organism and what constitutes genetic engineering techniques varies widely, with the most common being altered in a way that does "not occur naturally by mating and/or natural recombination".

The effect of potassium sorbate NaCl and pH on the growth

Abstract. In this study, the hurdle technology approach was used to prevent fungal growth of common spoilage fungi in naturally fermented black olives (*Alternaria alternata*, *Aspergillus niger*, *Fusarium semitectum* and *Penicillium roqueforti*). The factors studied included a combination of different concentrations of potassium sorbate (100 up to 1000 mg/L), a range of pH values (4.5, 5, 5.5, 6, and
